

LUMAIRE Magnetic A2

In the development of Lumaire Magnetic LED panel the most important goal was – practicality. Our Magnetic frame system is useful when easy print swapping is required. With the help of suction cup the protective acrylic sheet can be lifted, so it takes less than a minute to change the visual.

- Thickness is just 15mm
- Brightness up to 11000lx on the surface depending on size
- Single or double sided, curved
- Low power consumption
- Wide application possibilities, from interior design to signage

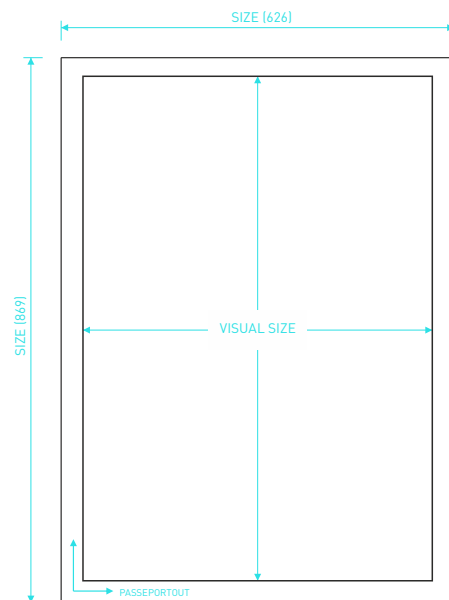

TECHNICAL SPECIFICATIONS

Manufacturer	Leddex
Product name	Lumaire Magnetic
Main material	Clear acrylic (PMMA)
Thickness	15 mm
Luminous efficiency	up to 180lm/W
Colour temperature	3000K 4000K 5000K 6500 K
IP rating	IP 20
Lifetime	> 50,000 hours
Warranty	3years
Operating temperature	-30°C ~ + 40°C
Wattage	9W
Power supply	DC 24V
Working voltage	DC 24V
Input voltage	AC 100 ~ 240V 50/60Hz

VISUAL APPEARANCE

Format A2

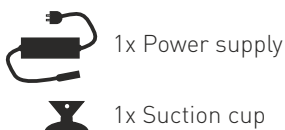

* Passepartout size: 19.5 mm

External size	Visible size	Poster size
622x452	583x413	612x442

EASY PRINT CHANGE

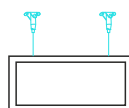

PACKAGE INCLUDES

1x Power supply

1x Suction cup

+ OPTIONAL ACCESSORIES

Cable installation kit
(Product code: LLS-KIT1)

MOUNTING
