

DC / AC CONVERTER IPS-800

12V / 230V MODIFIED SINE WAVE

	<p>Input voltage: 11÷15 VDC Output voltage : 230 VAC Maximum Power: 800 VA Instantaneous Power: 600 VA Continuous Power: 400 VA Output voltage type: Modified Sine Wave Soft start for inductive load: NO Overload protection : YES Short-current protection: YES Thermal protection: 80 °C Input overvoltage protection : 15 VDC Battery discharge warning: YES Operating temperature range: -25 ~ +55 °C Efficiency: > 92 % Cooling type: Active Connectors: Screw Connector M6 Output socket type: French Housing type: Aluminum IP protection: IP21 Dimensions LxBxH [mm]: 240 x 88 x 55 [mm] Weight: 1 kg Product code: 9002001</p>
--	--

Best for powering:

- Incandescent and LED lighting
- Drills, grinders, lawn mowers, vacuum cleaners etc.
- Laptop chargers and USB
- Computers, computer monitors, TV
- Printers and cash registers

High quality and reliability.

- Processor-selected shape of output voltage according to the load
- Overload, short-circuit and thermal protection
- Auto restart after detection of overload not requiring a manual reset of the converter
- Soft Start
- Indication of too low or too high voltage and deep discharge of the battery
- Smart and smooth control of the built-in fan
- High efficiency
- Low power consumption without load
- Guaranteed quality and reliability
