

The Revolution of Traditional Charger

Portable Charger with Power
Bank Function!

Apply to

3.6V/3.7V unprotected

Li-ion/IMR/INR/ICR 18650 batteries.

DIY Capability

With the replaceable battery design, you can even DIY the capacity of your mini power bank up to 7000mAh+.

Protect Our Environment

You can change and recycle any batteries that are not working with new ones anytime with PB2. Conversion efficiency up to 92% makes full use of battery energy every time.

Hand-Held Portable Charger with Magnetic Cover

Polished with quality rubber paint allowing you to insert and remove batteries quickly and easily.

Quick Charge Time

2AX1 / 1AX2

1.5hrs for a 2500mAh battery

Quick Charge Time

USB output with 2.1A max
2hrs for Iphone 7 Plus

charging

discharging

Patented Safe Technology

Battery charge & discharge balancing technology makes all of capacity available for use and increase each cell's longevity.

Power-Path Management System

Both batteries and the external USB devices can be charged safely and independently at the same time.

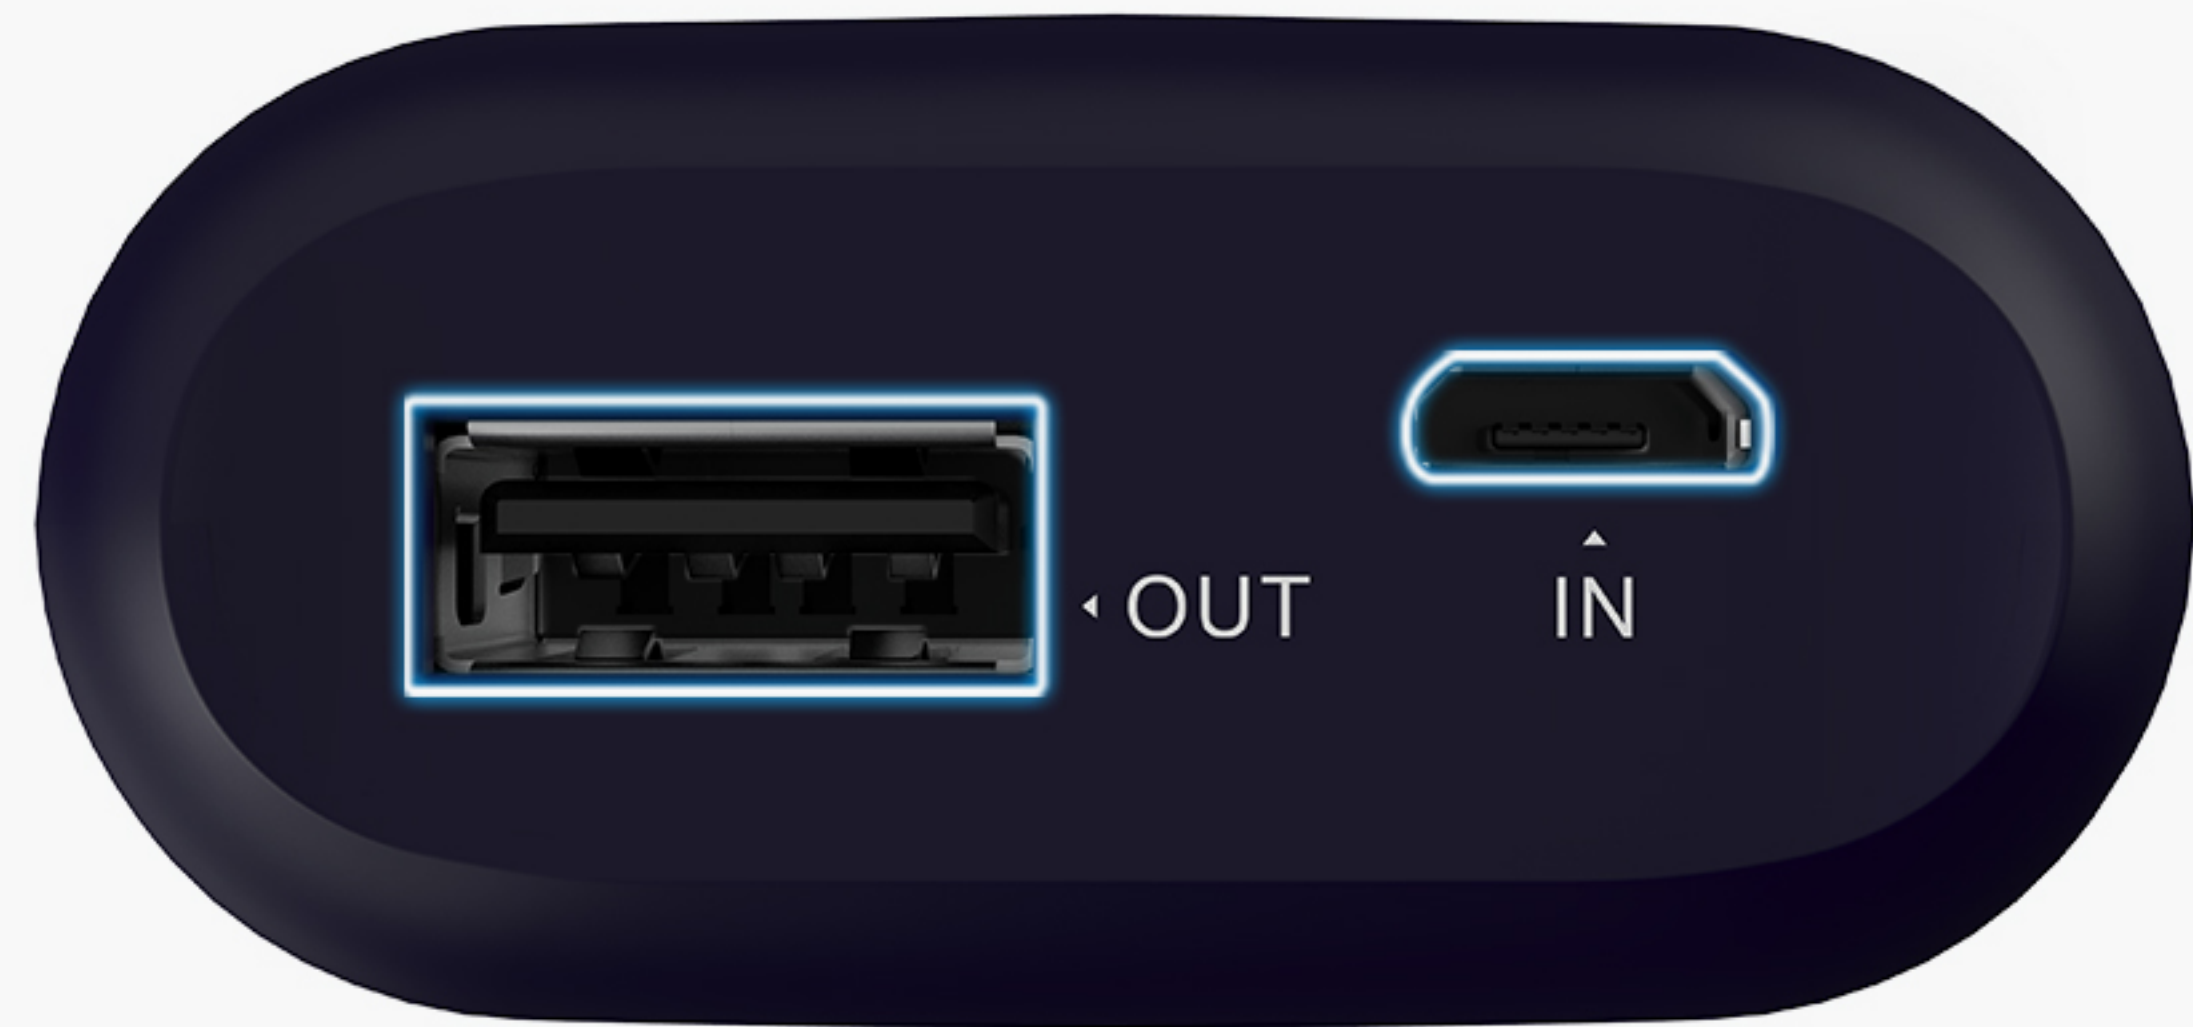

0V Activation Function

Most batteries we discarded are over-discharged batteries, and 0V Activation Function brings them back to life. Originally invented by XTAR, we are still leading the technology.

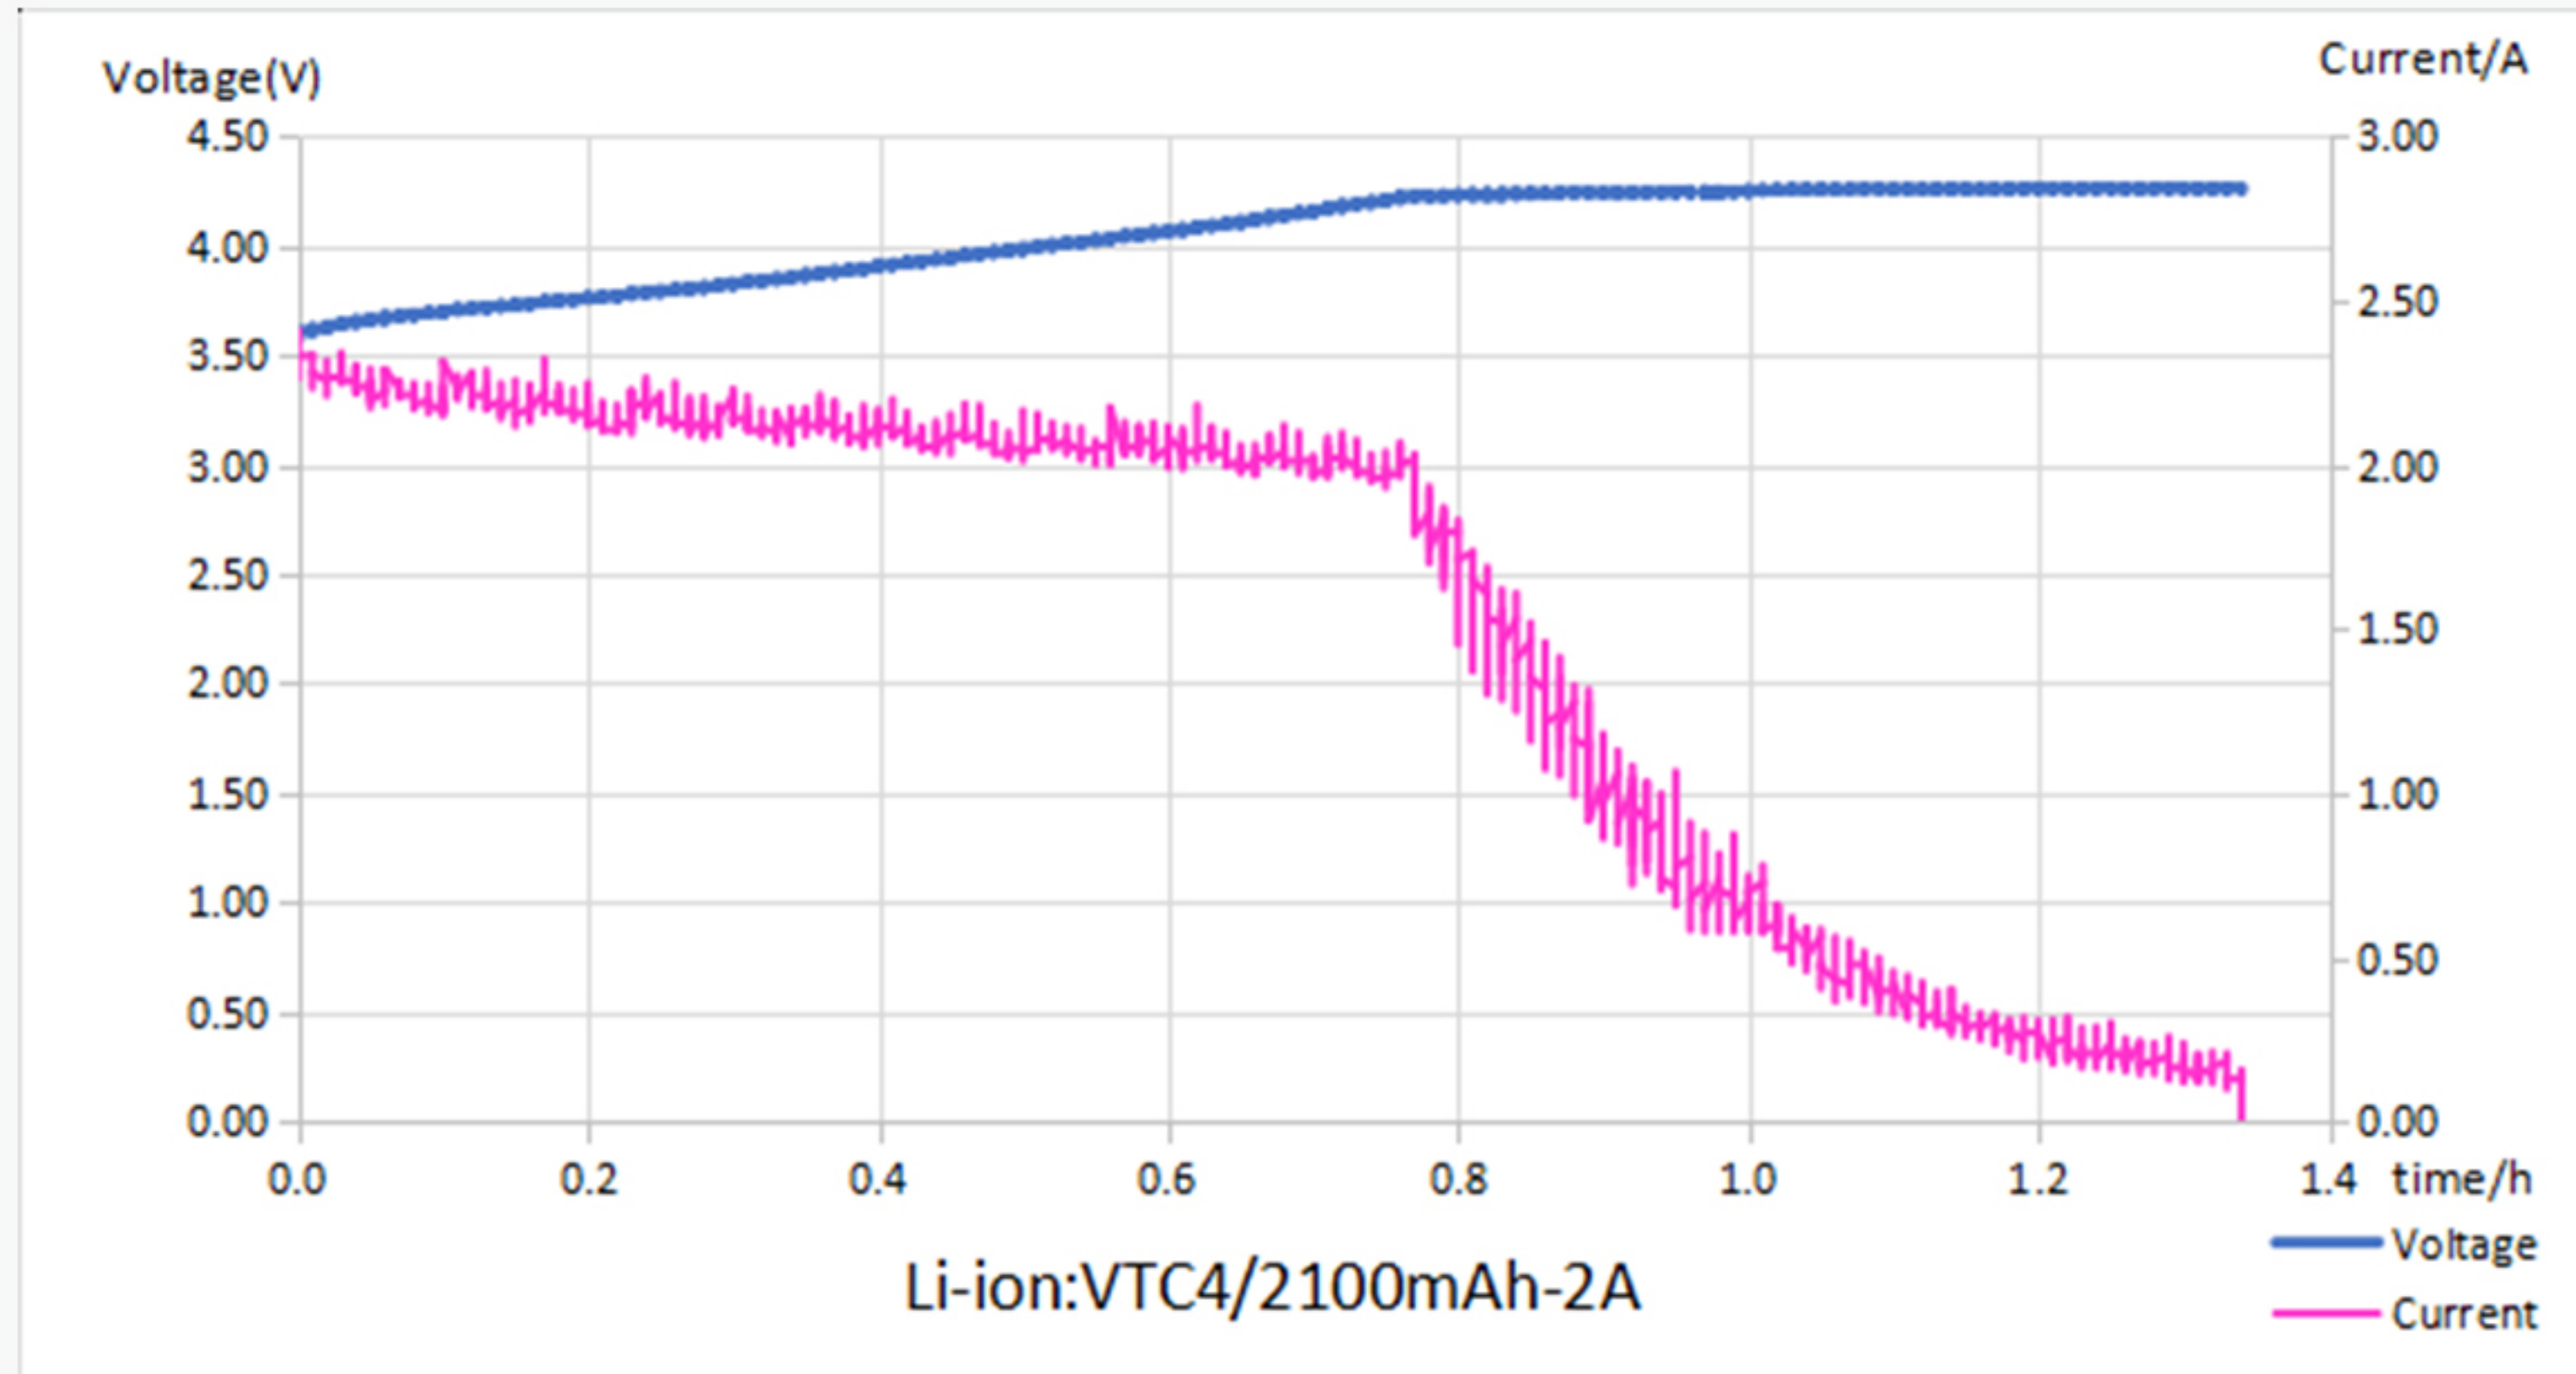

New Generation Intelligent Chip

You don't have to get the USB out and in or press the button to restart charging devices, just plug and charge.

Battery Life Optimization Charging

Accurate cut-off, efficient charging and never overcharge batteries

PB2参数

Model	PB2
Input	5V 2.1A
Constant Current	2A×1 / 1A×2
End of Charge Voltage	4.20±0.05V
End of Charge Current	≤150mA
USB Output	110x51x24mm
Operating Temperature	0-40°C
Size	L110mm x W51mm x H24mm
Net Weight	55g

4 Colours Available

PB2 Colourful combination
