

SFP.

Breather caps
with splash guard

ELESA Original design

SFP

technical informations

Cover and threaded connector

Polyamide based (PA) technopolymer. Resistant to solvents, oils, greases and other chemical agents.

Colour

- Cover: RAL 2004 orange, semi-matte finish, marked "OIL".
- Threaded connector: black, semi-matte finish.

Flat packing ring

NBR synthetic rubber.

Splash guard

Technopolymer.

Standard executions available

- SFP.: without air filter (black splash guard).

- SFP+F: with "tech-foam" air filter in polyurethane foam mesh (polyester base), air filtration 40 μ (grey splash guard) or with "tech-fil" air filter in zinc-plated steel wire (orange splash guard).

- SFP.70-BA+F: with "tech-foam" air filter in polyurethane foam mesh (polyester base), air filtration 40 μ (grey splash guard) and zinc-plated steel sheet bayonet and chrome-plated steel safety chain.

Maximum continuous working temperature

120°C for execution without air filter or with "tech-fil" air filter.
100°C for execution with "tech-foam" air filter.

Special executions on request (For sufficient quantities)

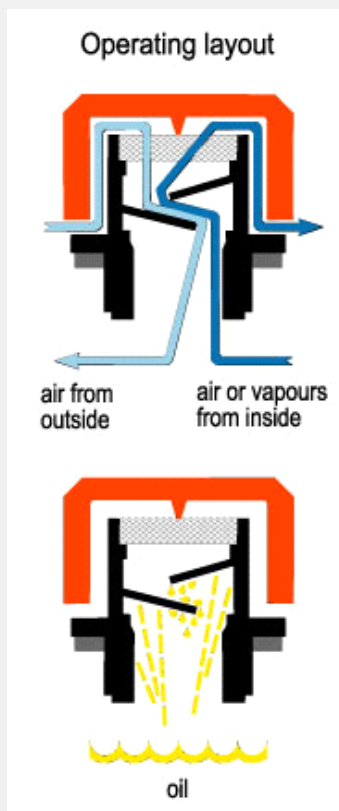

- Cover, RAL 2004 orange, without "OIL" mark.
- Black cover with or without "OIL" mark.

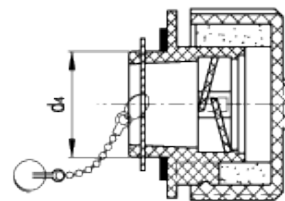

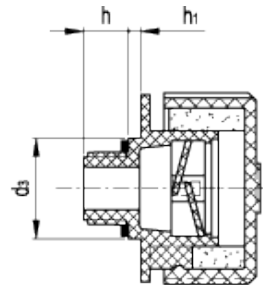

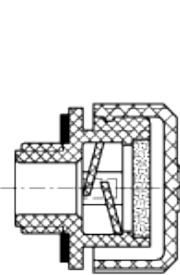

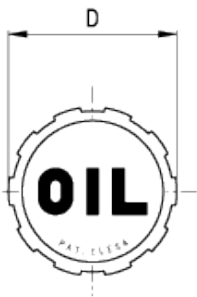

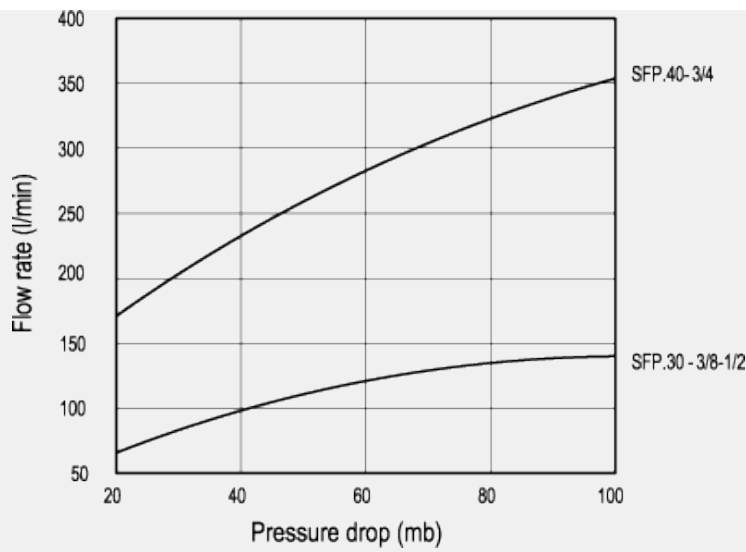

Features and applications

SFP. breather caps come complete with splash guard device (ELESA original design) that prevents oil loss and are particularly suitable for use where oil is violently agitated and could be splashed against breather cap.

Technical data

Air flow rate for each model can be determined from the graph calculating the difference between the pressure inside and outside the reservoir.
