

### DESCRIPTION:

Tool frame is from hardened steel with matte silver coating and clearly indicated crimp values. Ratchet system with unblocking option secures safe crimping process. Tool can fit into one hand and it is easy to crimp.

### FEATURES

- Crimp nests are processed with EDM wire machine in high quality carbon steel, heat treated, polished and nickel coated
- Precise eccentric adjustment
- Easy achievement of high crimping force
- Safety ratchet relief
- Quality crimp due to parallel crimping performance
- Crimped terminals are marked with lines

### TECHNICAL DATA

- Type Bex Compact
- Length [mm] 198
- Width [mm] 50
- Weight [g] 433
- Max. Handle force: 5Kn
- Life Span: 50 000 crimp cycles

### BC2

For crimping Insulated terminals
