Tool name: Exchangeable Zinc alloy inserts for RJ10 4P modular plugs
Tool code: U7301
Applicable tool: K730 crimp hand tool frame
Country of origin: Croatia (EU)
Customs tariff number: 82079091

FEATURES

- Inserts are made of precise casted special zinc alloy.
- Toothed segment for pressing bronze contacts is made of high-quality hardened steel, highly precise and within narrow tolerances.
- Reliable and quality connections are achieved.
- Correct positioning of each wire due to third segment in the middle.
- Reliable meeting of all required end tolerances of crimped connections.
- Constant high quality of crimped contacts.
- Long life tool
- Ensured 30.000,00 crimp cycles
