

Product Technical Data Sheet

Soldering acid

Preparation intended for soldering poorly solderable nickel-plated surfaces.

Zastosowanie:

- nickel-plated surfaces

Physicochemical properties of the liquid :

Parameters	UoM	Result
Density at 20°C	g/cm ³	1,2
PH value	-	<1
Viscosity	cP	10
Odour	-	No unpleasant odour

Packagings:

Volume	Collective packaging	Item Code
35ml	6 or 36	ART.AGT-117
100 ml	4 or 20	ART.AGT-246

Warehousing

Store the formulation in original packaging provided by the manufacturer in dry, ventilated facilities protected against sunlight at 5-25°C. Do not transfer to metal packagings . Do not store in open packagings along with alkaline products.

Data contained in this document are consistent with the current state of our knowledge. They describe typical product properties and applications. However , it is up to the user to examine the suitability of this product for specific applications. We deny liability for the obtained results on the grounds that application conditions lie beyond our control.
