

Ultrasonic Washers Safety Guide

1. Introduction

Dear Customer! Thank you for your purchase in TME! To protect the environment we have prepared for you this quick start guide. Before operating the unit, please read it carefully. Please visit www.tme.eu Illustrations in this manual are only example images and may differ from the actual item. It does not change their main characteristics.

2. Application

The device is designed for cleaning PCBs from contamination formed during soldering.

3. Unit setup and operation

P - Container for basket with PCBs

C - Cleaning time

W - Heater power switch

- Connect outflow to the drain.
- Plug the power cord into the appropriate outlet.
- Prepare a cleaning agent and pour it into container wherein the basket will be immersed, maintaining only a minimum cleaning agent level in the tank may damage the device.
- Turn on the power.
- Turn on the heater.
- Set the cleaning time.
- Place the parts to be cleaned in a basket and put it in the tank.
- Start the ultrasound.

4. Precautions

Transfer Multisort Elektronik Sp. z o.o.
