

## Data sheet Product SK 651

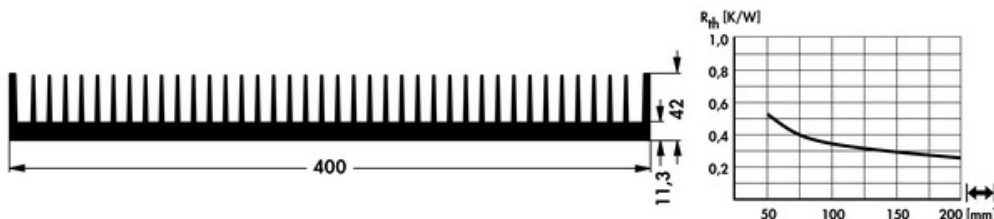

Profile heatsinks and fluid coolers > Standard extruded heatsinks  
400 x 42 mm

### Features

|                     |                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| thermal resistance: | <b>0.52 - 0.27 K/W</b>                                                                                                                   |
| surface:            | <ul style="list-style-type: none"> <li>• black anodised</li> <li>• natural colour anodised</li> <li>• raw degreased aluminium</li> </ul> |
| height:             | <b>42 mm</b>                                                                                                                             |
| width:              | <b>400 mm</b>                                                                                                                            |
| length:             | <b>75 mm / 100 mm / 150 mm / 200 mm / 1000 mm</b>                                                                                        |
| plate thickness:    | <b>11.3 mm</b>                                                                                                                           |
